

Control your Toshiba Air Conditioner from anywhere

via your smartphone, tablet or PC (iOS & Android)

Simple installation:

- Wireless device in each unit
- IntesisHome® Cloud Service manages all processes

Easy control:

- Remotely start and stop unit
- Program schedule
- Monitor your home temperature
- Get notified of any errors
- Compatible with residential and some commercial applications

There are 3 basic components to IntesisHome®:

The air conditioning units are controlled from a webpage or using an iOS or Android app in a very intuitive way.

WITH ANY DEVICE

FROM EVERYWHERE

A wireless device installed in each unit controls its operation.

INTERFACE WI-FI

A server in the cloud manages all the processes.

INTERNET SERVICE IN THE CLOUD
